Highlights

Identical look/feel to standard

Looks just like your standard bulb and has the perfect fit.

Immediate light when switching on

Just by turning the switch, your room is at full brightness. No slow starting, no waiting but immediate light.

Fully dimmable, down to glow

Dimmable with all dimmers, these lamps are able to dim down to all the spectrums, from a bright halogen light to a warm orange glow with just a bit of light.

Double lifetime of a bulb

This lamp lasts twice as long as a standard bulb. So it replaces two lamps, for lower cost and less hassle. The lifetime is based on the average usage of 2.7 hrs per day or 1000 hrs a year. This average is influenced by the usage during different seasons (dark winter vs. light summer), the weather conditions (sunny vs. rainy dark day) and on the room where the lamp is used (short usage in bathroom vs. long usage in living room).
